iPad apps for Speech and Language Therapy

The following list is a list of useful speech and language therapy apps which are free. As with most 'free apps' these free versions are 'lite' versions and are limited in terms of variety. Please note - free versions of apps often contain lots of adverts which pop up unavoidably on screen. It is important that an adult is present when children are on these apps as some pop ups may not be appropriate for children to see.

Please see the list of apps beneath categorised under focus areas. The app names to search for in the apple or android stores are after the bullet points under each section.

Speech (Free or 'Lite' Apps)

- Articulation Station – “p” sound
- Speech Therapy Articulation – “b” “m” “t” sounds
- SLP Minimal Pairs Lite – sound clusters (i.e. 's' blends and 'l' blends)

Language (Free or 'Lite' Apps)

- Let's Name Things Fun Deck (super duper) - vocabulary
- My PlayHome Lite – vocabulary/pronouns (e.g. he/she)/sentence modelling
- Talking Dice 3D – vocabulary (e.g. verbs and nouns)

The following list is a list of useful speech and language therapy apps which need to be purchased:
