

Swimming at The Castle Pool update 22nd October 2020

The Castle Pool are now ready to reintroduce our swimming lessons for pupils in year 8. Following all the relevant guidance, they have developed a swim programme for schools that keeps everyone safe and teaches in line with the attainment goals for this year set out by Swim England.

Castle Pool has introduced measures to cover additional staffing, to clean and make the building COVID safe for swimmers and to fund additional equipment necessary to delivery high quality lessons.

Swimming lessons for classes in Year 8 at Queensbury School will commence from the week commencing Monday 9th November on Tuesday mornings with 8N going swimming in the first place for the half term up until the Christmas holidays. 8E are due to swim for the first half term after the Christmas break.

Please refer to the Castle Pool risk assessment which is on our site and also refer to the documents attached and Swim England guidance in this link -

<https://www.swimming.org/schools/>.

Queensbury School are drawing up a risk assessment to cover the transport to and from the pool and this will be available on our website when completed.
