

**Curriculum intent (overview) – To deepen students’ skills and knowledge through a broad and balanced curriculum which prepares students for adulthood.**

## 10 E Class - **Explorer Curriculum** -

**Promote Facts (keywords)**

**Rehearsal of key content.**

**Careful Sequenced topics/Challenge with worded problems.**

Encourage learners to: • Develop fluent knowledge, skills and understanding of fundamental mathematical methods and concepts • acquire, select and apply mathematical techniques to solve problems • Reason mathematically, make deductions and inferences and draw conclusions • Comprehend, interpret and communicate mathematical information in a variety of forms appropriate to the information and context.

**Coursework must be started alongside learning**
