

10N- Navigator Curriculum

Year	2025-2056	2025-2056	2025-2056	2025-2056	2025-2056	2025-2056
2025-2056	Topic: Calculation NPV Addition and subtraction. Multiplication and division. Suggested Key Questions Can you tackle a word problem based on the topic. Promote core facts. Do you understand place value? Can you calculate using the add/subtract operations? Can you use Bidmas in multi stage calculations? Can students recognise, find and name a half as one of two equal parts of an object, shape or quantity Can you use understanding of title,	Topic: Addition and subtraction. Fractions and decimals and percentages. Measure and accuracy-Time Multiplication of two digit numbers use grid method. Division use bus stop method. Suggested Key Questions: Can you tackle a word problem based on the topic. Promote core facts Do you know your 2.5.10 x tables. DO you know your 4,8 and 9 x tables. Do you know all your 12 x 12 tables. Can you Develop fluency	Topic: Multiplication and division. Algebra Data and statistics Suggested Key Questions: Can you tackle a word problem based on the topic. Promote core facts Can you extract data? Can you present data? Can you use symbols? Can you Develop fluency Reason mathematically Solve problems involving algebra. Can you Develop fluency Reason mathematically	Topic: Number Ratio/Probability/Sequence Measure and accuracy-weight/capacity/volume. Suggested Key Questions: Promote core facts Can you tackle a word problem based on the topic. Can you link likelihood and chance? Can you Develop fluency Reason mathematically Solve problems involving algebra. Can you Develop fluency Reason mathematically Solve problems involving number. Can you Develop fluency	Topic: Calculation. Addition and subtraction. Fractions and decimals and percentages. Suggested Key Questions: Promote core facts Can you tackle a word problem based on the topic. Can you order negative numbers? What are factors and multiples? Can you order decimal numbers? What are square numbers? Can you read scales? What is perimeter/ What is area? Can you write fraction? Can you find equivalent fractions?	Topic: Angles and polygons Working in 2d/3d Measure and accuracy. Suggested Key Questions: Promote core facts Can you tackle a word problem based on the topic. Do you know what opposite angles are? Do you know about angles inside triangles? Key Skills and Knowledge: Calculate and solve problems involving: perimeters of 2-D shapes (including circles), areas of circles and composite shapes Identify and construct congruent triangles, and construct similar shapes by enlargement, with and without coordinate grids. Derive and use the sum of angles in a triangle and use it to deduce the angle sum in any polygon, and

	labels and simple scales? (sixth-form) <u>Key Skills and Knowledge:</u> Count backwards through zero to include negative numbers count in multiples of 6, 7, 9, 25 and 1000 identify, represent and estimate numbers using different representations Recognise, find, name and write fractions $\frac{3}{4}$, $\frac{1}{4}$, $\frac{2}{4}$ and $\frac{3}{4}$ of a length, shape, set of objects or quantity write simple fractions for example, $\frac{2}{4}$ of 6 = 3 and recognise the equivalence of $\frac{4}{2}$ and $\frac{2}{1}$. Add fraction	Reason mathematically Solve problems involving multiplication and division. Can you Develop fluency Reason mathematically Solve problems involving money. Can you Develop fluency Reason mathematically Solve problems involving 2d/3d shapes Identify appropriate methods for collecting data (sixth-form) <u>Key Skills and Knowledge:</u> Count in multiples of 6, 7, 9, 25 and 1 000 Recall multiplication and division facts for multiplication tables up to 12×12 Recognise and use factor pairs and commutativity in mental calculations Calculate and solve problems involving: perimeters of 2-D shapes (including circles), areas of circles and composite shapes Draw and measure line segments and angles Apply the properties of angles,	Solve problems involving data and statistics. Do you know metric measure for length, mass and capacity. Use whole numbers, decimals and fractions and percentages to present results (sixth-form) <u>Key Skills and Knowledge:</u> Describe, interpret and compare observed distributions of a single variable through: appropriate graphical representation involving discrete, continuous and grouped data; and appropriate measures of central tendency (mean, mode, median) and spread (range, consideration of outliers). construct and interpret appropriate tables, charts, and diagrams. Substitute numerical values into formulae and expressions, including scientific formulae.	Reason mathematically Solve problems involving algebra. Can you Develop fluency Reason mathematically Solve problems involving ratios, probability and sequence. <u>Key Skills and Knowledge:</u> Recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones) round any number to the nearest 10, 100 or 1 000 Use fraction and percentages to describe a proportion.	<u>Can you simplify fractions?</u> <u>Key Skills and Knowledge:</u> Subtract fractions Mixed numbers. Reinforce Count backwards through zero to include negative numbers count in multiples of 6, 7, 9, 25 and 1000 identify, represent and estimate numbers using different representations	to derive properties of regular polygons
--	--	---	--	---	--	---

		Recognise and use relationships between operations including inverse operations Round numbers and measures to an appropriate degree of accuracy Mathematically Solve problems involving time.				
Links to Gatsby Benchmarks:	<u>Benchmark 2</u> Labour market to information. What are the current trends in the jobs market that involve maths skills that students are learning. <u>Benchmark 4.</u> STEM opportunities-linking career opportunities and what aspects of mathematics they are learning.	<u>Benchmark 2</u> Labour market to information. What are the current trends in the jobs market that involve maths skills that students are learning. <u>Benchmark 4.</u> STEM opportunities-linking career opportunities and what aspects of mathematics they are learning.	<u>Benchmark 2</u> Labour market to information. What are the current trends in the jobs market that involve maths skills that students are learning. <u>Benchmark 4.</u> STEM opportunities-linking career opportunities and what aspects of mathematics they are learning.	<u>Benchmark 2</u> Labour market to information.
